COUGAR

REVERSIBLE ELECTROMECHANICAL OPERATOR FOR SWING GATE

INSTALLATION MANUAL and Security Information

SEA S.p.A.
Zona industriale 64020 S. ATTO Teramo - (ITALY)
Tel. +39 0861 588341 r.a. Fax +39 0861 588344
www.seateam.com
seacom@seateam.com

FEATURES AND SPECIFICATIONS

COUGAR is a high quality reversible electromechanical operator, in oil bath, for condominium and residential use, for gates with leaves lengths of max 6 m.

COUGAR is not provided with torque setting.

The slowdown and the torque setting can be adjusted by using the electronic control unit. COUGAR requires an electric lock in closing and in case of windy areas, it is also necessary to predispose an electric lock in opening. For the European laws and directives actually in force it is strongly recommended to use the Position Gate (device for the reading of the gate position), for reverse in case of obstacle.

TECHNICAL FEATURES	COUGAR 270	COUGAR 390
Power supply	230V~ (±5%) 50/60 Hz	
Power	300W	
Absorbed current	1,6 A	
Stroke	270 mm	390mm
Rod speed	0,85 cm/s	
Cycles hour (at a temp. of 20°C)	30	
Operating temperatures	-30°C ↯ +60°C ↯	
Thermal protection	130°C	
Max Thrust	600 daN	
Capacitor	6,3 µF	
Weight	7,5 Kg	8,3 Kg
Protection class	Ip55	
Max leaf lenght	6 m	7 m
Leaf opening degree	90° - 125°	

USING GRAPHIC OPERATORS COUGAR 270-390

Note: The frequency of use is valid only for the first hour at 20°C room temperature.

Note: in non-automatic logic, use operators without lock.

Fig. 3

STANDARD INSTALLATION

Fig. 4

- 1) Operator
- 2) Mechanical stop
- 3) Electronic control unit
- 4) Flashing lamp
- 5) Photocell Dx
- 6) Differential switch 16A - 0,03A
- 7) Photocell Sx
- 8) Start - stop push button with key
- 9) Antenna
- 10) Support for photocells with photocells
- 11) Warning notice

TYPE OF INSTALLATION

It is possible to install the operators with the opening towards the inside (Fig. 5) or towards the outside (Fig. 6)

Inside Opening Installation

Fig. 5

Outside Opening Installation

Fig. 6

Install the operator always inside your property

INSIDE OPENING INSTALLATION

NOTES:

- To obtain 110° with $d > 55$ mm it is necessary to make a niche in the gate
- To obtain 125° with $d > 55$ mm it is necessary to make a niche in the gate

INSTALLATION ON MASONRY PILLARS MAKING A NICHE

Fig. 9

OSCILLATING FORK INSTALLATION

PRELIMINARY

Fig. 10

- Open the package carefully, paying attention to not lose the parts reported in Fig. 3

- Fix the oscillating fork as in Fig. 10

Attention: do not use the hammer to insert the short brass pivot; the insertion of the pivot into the fork and bracket must be made simply by hand pressure

Fig. 11

Attention:

Do not incline the operator further then the allowed angle from the oscillating fork (1), this could cause its breaking

BACK FIXATION MOUNTING

According to the chosen opening type (inside or outside) and according to the chosen max. rotation of the leaf (see pages 17 - 18) the bracket must be first cut respecting the measurement "a" on pages 17-18 and than welded as in Fig. 13

The support must be positioned so that the operator is in perfect horizontal position (Fig. 13 - 14)

**Adjustable back fixation (with screw)
(Accessories on request)**

Fig. 12

Fig. 13

POSITIONING OF THE FRONT FIXATION

Once the operator has been mounted on the back fixation close the leaf and do as follows:

- 1) Pull out completely the chromium plated rod, **afterwards bring it back about 1 cm**
- 2) Fix the rod on the front fixation (Fig. 15)
- 3) Position the operator perfectly horizontal and mark the position of the front fixation (Fig. 14 and Fig. 15)

Attention: Avoid the welding of the front fixation to the rod of the operator already fixed as the welding residual (squirt) could ruin the chromium-plating of the rod

WELDING OF THE FRONT FIXATION TO THE GATE

Mount the front fixation so that it guarantees the perfectly horizontal position of the operator

Depending on the type of gate (wood, iron, aluminium) the front fixation can be welded or screwed

BALL JOINT AND PLATE MOUNTING

Mount the ball joint as shown in Fig.18. Mount the plate as shown in Fig.19.

BALL JOINT ADJUSTMENT

Adjust the ball joint as shown in Fig. 20 and Fig. 21

LEFT ASSEMBLY

Fig. 20

RIGHT ASSEMBLY

PERIODICAL MAINTENANCE

1	Check the robustness and the stability of the gate; particularly the leaning and/or rotation points of the gate (hinges)	Annual
2	Check the oil level in oil-bath operators (cap on the back cover of the operator)	Annual
3	Replace the oil with that recommended by the producer	4 years
4	Check the torque functionality in opening and closing	Annual
5	Check and grease the fixation pivots	Annual
6	Check the integrity of the connecting cables.	Annual
7	Check the function and the conditions of the mechanical stops in opening and closing (where the mechanical stop accessory is present)	Annual
8	Check the good status of all the apparatus which are subject to efforts (back fixation, oscillating fork and front fixation)	Annual
9	Check the functionality of all the accessories especially the function of all security devices and Position Gate	Annual
10	After having executed the periodical maintenance it is necessary to repeat the tests and the first power up of the automation	Annual

All the above mentioned operations must be executed by an authorised installer only

To the attention of users and technicians

RISK EXAMINATION

The points indicated by arrows in Fig. 27 are potentially dangerous. The installer must take a thorough risk examination to prevent crushing, conveying, cutting, grasping, trapping so as to guarantee a safe installation for people, animals and things. As for misunderstandings that may arise refer to area distributor or call our help desk.

These instructions are part of the device and must be kept in a well known place. The installer shall follow the provided instructions thoroughly. SEA S.p.A. products must only be used for the automation of doors, gates and wings. Any initiative taken without SEA S.p.A. explicit authorization will preserve the manufacture from whatsoever responsibility. The installer shall provide warning notices on not assessable further risks. SEA S.p.A. in its relentless aim to improve the production, is allowed to make whatsoever adjustment without giving notice. This does not oblige SEA S.p.A. to up-grade the past productions. SEA S.p.A. can not be deemed responsible for any damage or accident caused by product breaking, being damages or

accident due to a failure to comply with the instructions herein. The guarantee will be void and the manufacturer responsibility will be nullified if SEA S.p.A. original spare parts are not being used. The electric installation shall be carried out by a professional technician who will release documentation as requested by the laws in force. Packaging materials such as plastic bags, foam polystyrene, nails etc. must be kept out of children's reach as dangers may arise.

INITIAL CHECK AND PUTTING IN SERVICE

After having completed all necessary operations, for the correct installation of the products, described in the present manual and after having valued all resting risks which could arise in whatever installation **is necessary to test the automations to guarantee the max. security** and in particular way to guarantee the respect of what foreseen by the law and the normatives in force. In particular the test must be executed following the **EN12445** ruel which establishes the testing methods for the testing of the gate operators respecting the established limits by the **EN 12453 law**.

SAFETY PRECAUTIONS

All electrical installation work should conform to current regulations. A 16A - 0,030A differential switch must be incorporated into the source of the gate main electrical supply and the entire system must be properly earth bonded. Remember to separate mains (230/120V) carrying cables from low voltage control cables

INTENDED USE

The Cougar in all its versions has been planned to be used exclusively for the automation of swing gates

SPARE PARTS

To obtain spare parts contact: **SEA S.p.A. ZONA Ind.le, 64020 S.ATTO Teramo Italia**

SAFETY AND ENVIRONMENTAL COMPATIBILITY

Please dispose of the product and circuit packing materials in a responsible and appropriate way. When being transported this product must be properly packaged and handled with care

MAINTENANCE AND DECOMMISSION

The decommission and maintenance of these unities must be carried out by specialised and authorised personnel only

LIMIT OF GUARANTEE

For the guarantee see the sales conditions on the official SEA price list

NOTE: THE MANUFACTURER CAN NOT BE DEEMED RESPONSIBLE FOR ANY DAMAGE OR INJURY CAUSED BY IMPROPER USE OF THIS PRODUCT

SEA reserves the right to do changes or variations that may be necessary to its products with no obligation to notice

TERMS OF SALES

EFFICACY OF THE FOLLOWING TERMS OF SALE: the following general terms of sale shall be applied to all orders sent to SEA S.p.A. All sales made by SEA to all costumers are made under the prescription of this terms of sales which are integral part of sale contract and cancel and substitute all apposed clauses or specific negotiations present in order document received from the buyer.

GENERAL NOTICE The systems must be assembled exclusively with SEA components, unless specific agreements apply. Non-compliance with the applicable safety standards (European Standards EM12453 – EM 12445) and with good installation practice releases SEA from any responsibilities. SEA shall not be held responsible for any failure to execute a correct and safe installation under the above mentioned standards.

1) PROPOSED ORDER The proposed order shall be accepted only prior SEA approval of it. By signing the proposed order, the Buyer shall be bound to enter a purchase agreement, according to the specifications stated in the proposed order.

On the other hand, failure to notify the Buyer of said approval must not be construed as automatic acceptance on the part of SEA.

2) PERIOD OF THE OFFER The offer proposed by SEA or by its branch sales department shall be valid for 30 solar days, unless otherwise notified.

3) PRICING The prices in the proposed order are quoted from the Price List which is valid on the date the order was issued. The discounts granted by the branch sales department of SEA shall apply only prior to acceptance on the part of SEA. The prices are for merchandise delivered ex-works from the SEA establishment in Teramo, not including VAT and special packaging. SEA reserves the right to change at any time this price list, providing timely notice to the sales network. The special sales conditions with extra discount on quantity basis (Qx, Qx1, Qx2, Qx3 formula) is reserved to official distributors under SEA management written agreement.

4) PAYMENTS The accepted forms of payment are each time notified or approved by SEA. The interest rate on delay in payment shall be 1.5% every month but anyway shall not be higher than the max. interest rate legally permitted.

5) DELIVERY Delivery shall take place, approximately and not peremptorily, within 30 working days from the date of receipt of the order, unless otherwise notified. Transport of the goods sold shall be at Buyer's cost and risk. SEA shall not bear the costs of delivery giving the goods to the carrier, as chosen either by SEA or by the Buyer. Any loss and/or damage of the goods during transport, are at Buyer's cost.

6) COMPLAINTS Any complaints and/or claims shall be sent to SEA within 8 solar days from receipt of the goods, proved by adequate supporting documents as to their truthfulness.

7) SUPPLY The concerning order will be accepted by SEA without any engagement and subordinately to the possibility to get it's supplies of raw material which is necessary for the production; Eventual completely or partially unsuccessful executions cannot be reason for complains or reservations for damage. SEA supply is strictly limited to the goods of its manufacturing, not including assembly, installation and testing. SEA, therefore, disclaims any responsibility for damage deriving, also to third parties, from non-compliance of safety standards and good practice during installation and use of the purchased products.

8) WARRANTY The standard warranty period is 12 months. This warranty time can be extended by means of expedition of the warranty coupon as follows:

SILVER: The mechanical components of the operators belonging to this line are guaranteed for 24 months from the date of manufacturing written on the operator.

GOLD: The mechanical components of the operators belonging to this line are guaranteed for 36 months from the date of manufacturing written on the operator.

PLATINUM: The mechanical components of the operators belonging to this line are guaranteed for 36 months from the date of manufacturing written on the operator. The base warranty (36 months) will be extended for further 24 months (up to a total of 60 months) when it is acquired the certificate of warranty which will be filled in and sent to SEA S.p.A. The electronic devices and the systems of command are guaranteed for 24 months from the date of manufacturing. In case of defective product, SEA undertakes to replace free of charge or to repair the goods provided that they are returned to SEA repair centre. The definition of warranty status is by unquestionable assessment of SEA. The replaced parts shall remain propriety of SEA. Binding upon the parties, the material held in warranty by the Buyer, must be sent back to SEA repair centre with fees prepaid, and shall be dispatched by SEA with carriage forward. The warranty shall not cover any required labour activities.

The recognized defects, whatever their nature, shall not produce any responsibility and/or damage claim on the part of the Buyer against SEA. The guarantee is in no case recognized if changes are made to the goods, or in the case of improper use, or in the case of tampering or improper assembly, or if the label affixed by the manufacturer has been removed including the SEA registered trademark No. 804888. Furthermore, the warranty shall not apply if SEA products are partly or completely coupled with non-original mechanical and/or electronic components, and in particular, without a specific relevant authorization, and if the Buyer is not making regular payments. The warranty shall not cover damage caused by transport, expendable material, faults due to non-conformity with performance specifications of the products shown in the price list. No indemnification is granted during repairing and/or replacing of the goods in warranty. SEA disclaims any responsibility for damage to objects and persons deriving from non-compliance with safety standards, installation instructions or use of sold goods. The repair of products under warranty and out of warranty is subject to compliance with the procedures notified by SEA.

9) RESERVED DOMAIN A clause of reserved domain applies to the sold goods; SEA shall decide autonomously whether to make use of it or not, whereby the Buyer purchases propriety of the goods only after full payment of the latter.

10) COMPETENT COURT OF LAW In case of disputes arising from the application of the agreement, the competent court of law is the tribunal of Teramo. SEA reserves the faculty to make technical changes to improve its own products, which are not in this price list at any moment and without notice. SEA declines any responsibility due to possible mistakes contained inside the present price list caused by printing and/or copying. The present price list cancels and substitutes the previous ones. The Buyer, according to the law No. 196/2003 (privacy code) consents to put his personal data, deriving from the present contract, in SEA archives and electronic files, and he also gives his consent to their treatment for commercial and administrative purposes.

Industrial ownership rights: once the Buyer has recognized that SEA has the exclusive legal ownership of the registered SEA brand num.804888 affixed on product labels and / or on manuals and / or on any other documentation, he will commit himself to use it in a way which does not reduce the value of these rights, he won't also remove, replace or modify brands or any other particularity from the products. Any kind of replication or use of SEA brand is forbidden as well as of any particularity on the products, unless preventive and expressed authorization by SEA.

In accomplishment with art. 1341 of the Italian Civil Law it will be approved expressly clauses under numbers:

4) PAYMENTS - 8) GUARANTEE - 10) COMPETENT COURT OF LOW

English GENERAL NOTICE FOR THE INSTALLER AND THE USER

1. Read carefully these **Instructions** before beginning to install the product. Store these instructions for future reference
2. Don't waste product packaging materials and /or circuits.
3. This product was designed and built strictly for the use indicated in this documentation. Any other use, not expressly indicated here, could compromise the good condition/operation of the product and/or be a source of danger. SEA S.p.A. declines all liability caused by improper use or different use in respect to the intended one.
4. The mechanical parts must be comply with Directives: Machine Regulation 2006/42/CE and following adjustments), Low Tension (2006/95/CE), electromgnetic Consistency (2004/108/CE) Installation must be done respecting Directives: EN12453 and En12445.
5. Do not install the equipment in an explosive atmosphere.
6. SEA S.p.A. is not responsible for failure to observe Good Techniques in the construction of the locking elements to motorize, or for any deformation that may occur during use.
7. Before attempting any job on the system, cut out electrical power and disconnect the batteries. Be sure that the earthing system is perfectly constructed, and connect it metal parts of the lock.
8. Use of the indicator-light is recommended for every system, as well as a warning sign well-fixed to the frame structure.
9. SEA S.p.A. declines all liability as concerns the automated system's security and efficiency, if components used, are not produced by SEAS.p.A..
10. For maintenance, strictly use original parts by SEA.
11. Do not modify in any way the components of the automated system.
12. The installer shall supply all information concerning system's manual functioning in case of emergency, and shall hand over to the user the warnings handbook supplied with the product.
13. Do not allow children or adults to stay near the product while it is operating. The application cannot be used by children, by people with reduced physical, mental or sensorial capacity, or by people without experience or necessary training. Keep remote controls or other pulse generators away from children, to prevent involuntary activation of the system.
14. Transit through the leaves is allowed only when the gate is fully open.
15. The User must not attempt to repair or to take direct action on the system and must solely contact qualified SEA personnel or SEA service centers. User can apply only the manual function of emergency.
16. The power cables maximum length between the central engine and motors should not be greater than 10 m. Use cables with 2,5 mm² section. Use double insulation cable (cable sheath) to the immediate vicinity of the terminals, in particular for the 230V cable. Keep an adequate distance (at least 2.5 mm in air), between the conductors in low voltage (230V) and the conductors in low voltage safety (SELV) or use an appropriate sheath that provides extra insulation having a thickness of 1 mm.
